HOPE OF COMPROMISE ABANDONED BY TAFT

Force From Our Ships May Be Landed in Havana Within a Few Hours.

HAVANA, Cuba, Sept. 22.-The big question now forming in Cuba is not whether the United States Government shall intervene to restore peace, but in what form the intervention will be offered.

Secretary Taft has received statements from all factions that indicate that no agreement can possibly be reached that would leave the island government wholly in Cuban

American officials, hitherto optimistle over the prospects of securing peace and restoring the Palma government, are now convinced that only the good offices of Uncle Sam can save the island from continued turmoil and an uncertain political

No Hope of Compromise.

Taft has received statements from Capote representing the government's view of the situation, and from Zayas, setting out the attitude of the rebels, and none give hope of compromise.

Officials of the Paima government threaten that if the American representatives order new elections the entire responsibility of conducting the government temporarily and managing the elections will be thrown on their hands.

One proposed solution to the difficulty tion is accepted by the rebels, the conadministration. This would be, in effect a provisional American government.

Secretary Taft is about ready to ig-nore both factions, and appoint a commission of natives to devise a solution to be enforced by Americans. It is lebatable question whether a plan generally acceptable can be formed.

Call Funston a Deserter.

The news of General Funston's coming is resented by some of the Cubans, who say that he left the army of liberation the country. A number aver that Funsay that he simply left the service.

Taft Meets Rebels Today.

It is probable that there will be some mportant developments after the conference which is to be held today be tween Secretaries Taft and Bacon, and ing Castillo, Guerra and representatives of the Santa Clara rebels.

The fighting men have not yet seen the American commissioners. When they have Mr. Taft will be in a position to

the United States to pursue.
It is reported here today that Mr. Taft has sent word to President Roosevelt that there is scarcely a hope of bringing about lasting peace except under an American protectorate backed by an armed force. This of course, cannot be verified, but it is generally credited.
